

THE MOTHER'S PROBLEM

Of Raising Strong, Healthy Girls.

A serious problem which presents itself to every mother with girls to raise, in these days. The exigencies of school life, the hurry and routine of every-day duties, the artificial environment of modern civilization, make it more difficult to raise strong, healthy girls than ever in the history of the world.

Boys raise themselves. Give them room, give them liberty, and they will grow up healthy at least, without much worrying. But the girls present a serious problem.

How many mothers there are who are worrying about their daughters. Nervous, puny girls, with poor, capricious appetites, bloodless, listless, a constant anxiety to the mother. How shall she solve her problem? To whom shall she turn for help? Each case is more or less a study by itself, and cannot be solved by any general rule.

This is the way one mother solved the problem. Mrs. Schopfer, 2929 Prescott Ave., St. Louis, Mo., in a letter to Dr. Hartman, says: "My daughter Alice, four years of age, was a puny, sickly, ailing child since she was born. I was always doctoring her. When we commenced to use Peruna she grew strong and well."

Another mother, Mrs. Martha Moss, R. F. D. 5, Chippewa Falls, Wisconsin, says: "Our little eight-year-old girl had a bad cough, and was in a general run-down condition." She had several doctors, who could give the child no relief, and the mother no encouragement.

Finally, she got a bottle of Peruna and commenced giving it to the child, and it proved to be just what she needed. When she commenced taking Peruna the child had to be carried.

Now the mother says she is playing around all the time.

Her closing words were: "You have done a great deal for her. She is the only girl we have, and it meant lots to us to have her cured."

These are samples of many letters which Dr. Hartman is receiving, coming straight from the hearts of loving mothers. While the different schools of medicine are bickering and differing as to theories and remedies, Peruna goes right steadily on giving permanent relief. After all, it is cures that the people want. Theories are of little account.

TO THE REPUBLICAN VOTERS OF KNOX COUNTY

In view of the issues that are being discussed in the contest for the Republican nomination for Prosecuting Attorney, I deem it proper to make the following declaration.

1. That each candidate should be willing to be judged by his own merits and that he has a right to insist that no other question shall be made against him, and that he shall stand or fall, measured by this standard.

2. That the Prosecuting Attorney shall, so far as he can, enforce all the laws alike, and do that without regard to any person or class, and accepting therefor only such rewards as are allowed to and justly follow the performance of this duty.

3. That he shall personally, so far as he can, perform all the duties of his office without assistance, and without any extra charge or expense to the county.

4. I believe that the law is intended to be and should be made a protecting friend of every citizen that its enforcement should be swift, certain and economical, that it should be enforced so that it will be looked upon with reverence and respect and not with fear or apprehension, so that every man should feel safe and free to demand without hesitation its full protection for himself, his family, his life, liberty and property, and that the law should be regarded as a birth-right.

5. That it should be the duty of the Prosecuting Attorney to enforce all the laws, of every kind and nature, and that equality before the law should be guaranteed to every person and class, and that our only safety lies in having a just code, and that then all should unite in obedience and respect therefor.

6. It is manifest to all that under our present system there is great waste and extravagance, and that to some extent at least, the office of Prosecuting Attorney could be used to prevent this, and thereby so far as possible secure a lower tax rate.
